

**DECCAN DIARIES**  
**(Eastern Bulls – RM 09)**  
**18<sup>TH</sup> – 29<sup>TH</sup> January 2009**

The **Eastern Bulls** participated in **Rider Mania 2009** as a Club. Individual riders from Kolkata ride to Ooty. To my feelings it was a complete teamwork that had been reflected in the following section. The riders requested Sumanta RoyChowdhury to keep track of the riders and update the club's yahoo group on every progress. Contribution by all the members can be seen in the mails exchanged in the group during the ride.

After coming back from the ride, and reading the post by all the members at the yahoo group I find that our complete ride story is already written there. The efforts and enthusiasm shown by the members of the **Eastern Bulls** certainly tell us the "**Ride to Ooty was not an Individual Ride, but it was an Ultimate Club Ride**". Below here I take the opportunity to compile them as a single document. It's just a glimpse of all the honest effort by all the members at home to track and help us during our ride.

The effort has been given to feel the document as reading email. Hope you will like it.

I dedicate this document to the Eastern Bulls for the excellent team work to help the riders while on wheels.

5 of them were at Pashkura bypass along with Anindo and Faisal after having covered approximately 85kms. Faisal and Anindo would ride till Digha and come back while the other 5 would thump towards their destination for tonight - Rambha.

They departed at about 6.30 AM in the morning.

Hero's 500 which Arijit took developed some problems due to which Arijit had to ride back to Kharagpur. Faisal rode my bike upto Kharagpur and they are in the process of exchanging bikes. Arijit intends to ride upto Balasore tonight and start again in the morning. On asking about the others I was told they have gone ahead hence I assume they would be halting at Rambha as planned. If anyone else has updates from the second group please inform us.

Rider Mania 2009

Update – 1

Five members (Arijit, Suman, Nimesh, Santosh & Anand) of Eastern Bulls (EB) left Kolkata in the early hours of 18th January to start their Rider Mania 2009 (RM09) campaign. Eight other members braved the early morning chill and turned up at the Russel Street Dhaba (Anindya joined from Kona Expressway – NH2 crossing) to see them off.

It started like any other ride of EB except for the bikes going for RM09. They were packed for the 10 grueling days and more than 5600kms that lies ahead. Little Anand surprised everyone with his minimalist approach – he packed as if for an overnight trip to Burdwan and insisted that he is carrying everything he may need during the trip. He even denied the PTT gadget. Members who tried to peep through the broken zipper (of his bag of course) were met with a menacing looking black plastic. The eight members who came to see the riders off had different plans too. Some, like Faisal, wanted to go as far as Ooty to see them off and some like me, who had terribly important unfinished business at the home toilet was looking for the first exit on NH6 to head back home.

The sound of Sumon, munching chapatti at Bhadrak was heard around 4:00PM. Between gulps of whatever else he was having with chapatti, stories of some brave heroics by EB members emerged. Bharat from Jamshedpur has joined up somewhere along the road. Arijit's bike was misbehaving and he had to stay back at Balasore for the time being. Faisal and Sourav Singh are heading for Kharagpur with Faisal riding the replacement bike for Arijit. The other members plan to reach Chilka by nightfall.

Neat. So by 19:00 hours they should be in Bhubaneswar looking for accomodation.

They aimed for 620 covered approximately 450.

Tomorrow they need to make up 170 odd kms if they want to stick to their plan and ride to Vijaywada which they do not need to with the number of days they have in hand. They can easily halt at Vishakapatnam, that would also give Arijit the chance to catch up with them at a leisurely pace.

Day - 2  
Suman, Nimesh, Santosh, Anand & Bharat have started from Balurgaon  
(near Chilka) around 8:00AM. They plane to make it to Vijayada and  
spend the night there.

Arijit has not informed about his departure but as per telecon  
yesterday, he has started around 5:00AM and taking advantage of early  
morning traffic should be nearing Bhubneshwar by now. The gap between  
Arijit and rest of the group is around 300kms. With a 3hr head start  
and the advantage of riding solo, Arijit should meet the group by  
lunchtime.

The group left Tuni at 5:30AM and has managed to cover more than 100kms before stopping for breakfast at a small town around 8:00AM. Rajamundri, the next big town is 25kms away. Last night a local newspaper spotted our EB members at Tuni and got interested. A few photographs were taken and today the members were pleasantly surprised to find their photo with the story of their ride(in Telegu) in the morning papers. As of now they plan to reach Pondycheri by night.

Just spoke to Arijit at 13:30. They are in Chennai in someone called Ganesh's garage. Getting some minor work done on the required bikes. Arijit had to change the front tire of my bike. And the others have some problems with their carb's.

They have not yet planned what they will do now. But I guess Sumanta would keep us updated on that !

Greetings from home - the city of Joy !

Rather a news less day today. Around 13:00hrs the boys were at Chennai getting various minor and some major repairs done to their bikes. I was told that Santosh has even gone for a carburettor change and when I was speaking to Suman and Arijit he has gone to the market looking for a new one.

Chennai to Kanyakumari is around 700kms and heading for that side would mean that the boys will have to cover around 1300kms in the next 48hrs in order to reach Ooty (Kanyakumari to Ooty is 536kms) on 23rd night, which is definitely a tough call going by the average distance

they are covering in a day.

It was obvious that some discussion was going on between the members about the feasible course of action but as of now I am completely in dark as to what they have finally embarked upon. It is obvious that riders differ in their stamina and speed but It is my feeling that for a mixed group the lowest common denominator should be factored before deciding on any plan.

While eight of our members rode like maniacs to Rider Mania and surely doing great things there, Sourav and Anis here have started something that will surely go a long way in shaping how the Eastern Bulls are known in the days to come.

I don't know what would be the biking equivalent of Alpine style mountaineering but these two guys, instead of sitting idle in Kolkata have simply packed a two-man tent and despatched themselves for Mandarmoni about 200Kms from here. They plan to pitch their tent in an isolated plot and try to live off the land. How long they will be able to live off the land ... well only time and they will tell but here is wishing them a great Republican day weekend and hopefully there will be many more biking + tenting trips in the days ahead where I will be spared from my duties of posting impressive stuff on the net and allowed to ride. Around 11:50 AM today Sourav and Anis were just turning right from Nandakumar crossing and taking the Digha Road. They should be in Mandarmoni by now.

lovely !!! Indro and me rode down together from ooty to chennai.... 9.5 hours without any bajooing... lovely ride...

@ indro - sorry couldnt take your call... hopefully you are still with the same number in cal too..

@ Gents who had come for rm 09 - it was a pleasure meeting you.. some of the names i remember, some i dont.. my apologies..

The presentation was brilliant !!! hats off to the guys behind the effort... i did get to see your famous Russel chai shop :)

Cheers all and ride safe

David I shall have the same number in Cal.

Could you please mail me the detailed route we took ? Have to admit the roads were fantastic through out.

Best wishes  
Indra

Machan really sorry about that. I had really no other option :). But we rode the "best" part of the route together anyways :D.

Ride safe da,

Till next RM

Around 11:00hrs Indro was seen smoking in his car in front of IBM millennium Building with a bored look on his face. He calls me at 16:00hrs with a great deal of cheer in his voice to inform me that he is heading for Gopalpur to meet the boys coming back from RM09.

Ride and drive safe boys

Starting from Ichhapuram, Nimesh ji, Suman, Faisal, Arijit, Santosh and Anand (now nicknamed POWERFUL) covered more than 600kms and reached Uluberia around 9:00PM. Some of EB members were also on their way to Uluberia for a joyous reunion. Lots of cheering, hugs, and little cups of tea later the valiant riders rode to their respective homes, to their families and some well deserved rest.

RM09 ends for Eastern Bulls but for the members who could not make it this year, there is always a next time ... after all if you don't ride
